

E-mobility Safety Tips

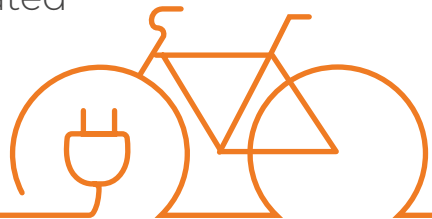

Only buy your e-bike, e-scooter or conversion kit from a **reputable retailer**

Keep device well-maintained and **do not use if damaged**

Only use **genuine** replacement components

Don't try to modify your battery pack

If possible, charge outside in a secure shed or designated charging area

If you absolutely have to charge indoors:

Don't charge your e-bike or e-scooter in an exit route or common areas

Avoid charging overnight

Once charged, unplug the charger

Charge batteries in an area with working smoke alarms and sprinklers

Avoid charging batteries anywhere near flammable materials

If your battery catches fire, get out **quickly** and call the fire service
